

# Holiday Light Recycling Program

**LIGHT STRANDS ONLY**

Portage County Solid Waste is seeking the help of interested municipalities to collect, monitor bin(s), and transport stands of holiday lights from residents to the Portage County MRF for recycling. Incandescent and LED strands of lights are accepted; no lighted figurines, cords, bags, garbage, etc. This free pilot program goes until January 31, 2022, or sooner for individual sites if contamination becomes an issue. All collected strands of lights need to be dropped off at the MRF by Friday, February 25th.

This is a pilot program, so if contamination becomes an issue or other concerns arise we will not offer this program for the 2022-2023 holiday season.

Interested municipalities need to contact the Solid Waste Director by November 29th, or sooner, so a list of all drop-off locations can be posted online and in a press release.
